

"Nothing To Sell but Service"

When "we" think portable restrooms the first thing that comes to "our" minds is old, written on smelly units. Not so with S.T.W.S.. This portable restroom company prides itself with top quality units. S.T.W.S. also prides itself with top notch customer service and satisfaction. These two put together have gotten this company where it is today in only three and a half years of operation.

Since opening our doors in late 2004 our motto at S.T.W.S. has been: "Nothing To Sell but Service". Customer satisfaction is our top priority and we have done things no other locally owned portable restroom company has done. We have expanded the type of restrooms to rent. We now offer: VIP / Deluxe restrooms which are all stainless steel inside the unit and are flushable. There are trailer restrooms. These are units that are placed on top of a special small trailer so that the units can be moved along with a truck during a long working area. To add among the list are air-conditioned trailer restrooms, shower restrooms, baby changing station, handwash stations, fencing, soap dispensers, mirrors in the ladies restrooms and lights in the restrooms. Brand new to our line are pink party restrooms. Of course we still offer holding tanks and septic cleaning service.

There are two sections of S.T.W.S.. There is a construction unit section which consists of units only for construction sites. However, just because these units are only for construction sites does not mean the quality is low. No unit will be placed or kept on a job site if it is vandalized in anyway.

Any unit that has been vandalized in any way will be picked up, repaired and replaced. The other section of S.T.W.S are units only used for parties and special events. This section of the company caters to any size or any type of event. For night time events lights are used inside the units for customers convenience.

South Texas Waste Systems is the first and only locally owned company to offer "on-site" service. This is where employee(s) work during the event to keep the restrooms clean and fully stocked.

South Texas Waste Systems top priority is customer satisfaction and this company has done things to insure that all customers are satisfied. We provide a 24 hour service. Anyone can call at anytime after hours and on weekends and we will help that customer. This company uses top of the line environmentally safe chemicals. We will not cut the quality to cut prices. All of our equipment is clean and well-maintained. We have quick delivery. Free scented disks are added in each unit. Our office staff and drivers treat every customer with respect.

What S.T.W.S is striving to do is to offer Laredoans products and services that larger cities have. We want to keep Laredoans business here in Laredo with a locally owned company. We listen to our clients needs and to their wants, we do not mind going that extra mile to satisfy one customer. Enclosed are a few recent letters we have received from a few recent customers.

Thank you,
Wanda J. Peter Venegas
